Forest District

We invite hunters from Poland and abroad to cooperate with the Hunting Office of the Wymiarki Forest District. We offer a professional organization of individual and collective hunting at attractive prices. Hunters have the area of two hunting districts with a total area of 22.5 thousand ha at their disposal. The Animal Breeding Center of the Wymiarki Forest District is located in the south-western part of the Lubuskie Province, directly at the Polish-German border, in one of the largest forests in Europe - Lower Silesian Forests. Our hunting grounds are distinguished by very high forest cover (nearly 70%). The area is rich mainly in big game (mostly red deer and wild boar).
